Enroll and customize devices securely over any network connection over the air (OTA).

Configure device passwords, screen lock and Wi-Fi instantaneously

Secure authentication, feature restrictions, remote lock, remote wipe and secure email access.

Intelligent alert notifications to monitor mobile fleet proactively.

Locate mobile assets, anywhere in the world with an interactive map.

Deploy enterprise & Market applications to users via custom portal.

Use standard or custom reports to audit mobile operations and performance.

View and report on device status, network connection, security compliance, and installed applications.

"SOTI's support solution is the mobile device solution of choice for ThyssenKrupp, allowing us to enhance our operational efficiency."

-Pat McElhinney, VP Information Technology,
ThyssenKrupp Elevator Americas, USA

"The remarkable part of the installation process was that we were able to install MobiControl on over 2,844 mobile devices in a 24-hour period."

- Amanda Kahler, Manager, Handheld Support,
MasTec, USA

MobiControl

NEW
v9.02

Maximize your Mobile Field-Force

- **Reduce Total Cost of Ownership**

Automate processes to increase productivity, reduce labor costs and maximize your ROI

- **Increase Productivity**

Minimize downtime, shorten training curves, increase user adoption, reduce support and labor costs and simplify device management.

- **Reduce Security Risk**

Advanced encryption to protect sensitive corporate data, Active Directory based user authentication, Application Run Control, Hardware Feature Control & much more. Advanced security policies provide administrators with granular control over how mobile devices are used and data is accessed as well as help achieve PCI, SOX and HIPAA compliance.

- **Benefit from Open Standards**

Built using open industry standards with no need for proprietary hardware or software.

- **Protect Your Investment**

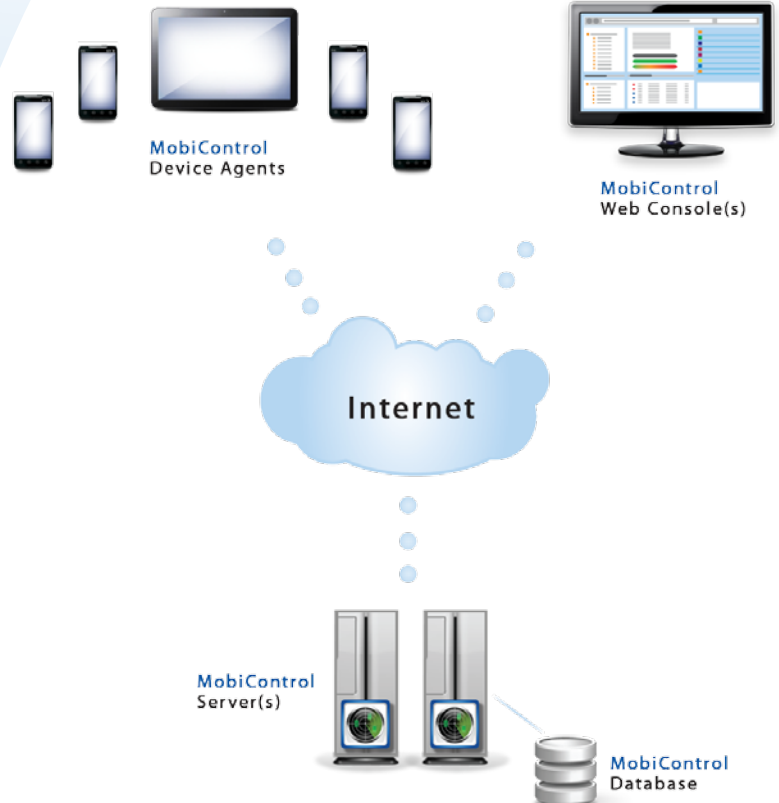

MobiControl supports all Google Android 2.2+ computing devices that operate over any network. (e.g. WiFi, GPRS, EDGE, UMTS, LTE, 3G).

- **Maximize Your ROI**

MobiControl translates a support cost savings in excess of \$200 per user/year. - VDC Research Group, Inc.

System Requirements

Compatible with all devices running Android 2.2+ and computers running Microsoft Windows Operating Systems.

Manage Mobile Deployments Over Any Network Topology

- ✓ WiFi or other wireless network
- ✓ Low & High bandwidth Cellular Network
 - GPRS, EDGE, UMTS, LTE, WiMAX, 3G, etc.
- ✓ External network outside corporate firewall
