

SOTI CONNECT

TAKE CONTROL OF YOUR IoT

The adoption of the Internet of Things (IoT) is growing in every sector and industry, from consumer electronics and retail to transportation and logistics, and even healthcare. Enterprises rely on the power of IoT to operate more efficiently, deliver better customer experiences, gather insights and improve decision-making to accelerate their business performance. However, maintenance costs and downtime of business-critical IoT-enabled devices can cost an organization loss of visibility into its operations, and lead to lost revenue, efficiency or even put people's lives at risk.

SOTI Connect is an IoT management solution that empowers enterprises to effectively manage and gain visibility into the diverse and numerous IoT-enabled devices throughout their operations, while reducing the total cost of ownership (TCO) of those devices.

IoT MANAGEMENT MADE EASY

SOTI Connect is an IoT solution built for business that provides complete lifecycle management of IoT devices within an organization. Its highly flexible, data-driven architecture means that new IoT-enabled devices can be quickly supported and managed, reducing the deployment time for IoT initiatives. Deploy your IoT solutions quickly, with total visibility, and increase uptime of IoT devices with SOTI Connect.

WHAT SOTI CONNECT CAN DO FOR YOUR BUSINESS

MANAGE YOUR BUSINESS-CRITICAL IoT

SOTI Connect addresses key IoT management challenges with remote support features that reduce device downtime and workflow disruptions.

- Remote support features provide instant access to IoT endpoints and allow organizations to immediately troubleshoot and resolves issues
- A data-driven architecture introduces support for new IoT-enabled devices without the need for software updates or written code
- Automation rules automatically issue alerts and actions when pre-defined conditions are met on the device, greatly reducing downtime of IoT solutions

MANAGE MANY IoT DEVICE TYPES AND PROTOCOLS

SOTI Connect provides centralized, manufacturer-agnostic management of all IoT devices within an organization's technology infrastructure.

- Manage IoT devices regardless of communication protocol and choose the IoT solutions that best fit your business
- Reduce infrastructure and training requirements by consolidating multiple device management solutions into a single platform to manage your organization's mobility and IoT initiatives
- Reduce maintenance and resource costs with instant and remote configuration of device communications, settings and actions

SUPPORT FOR INDUSTRIAL AND MOBILE PRINTERS AND SENSORS

SOTI Connect directly addresses prevalent industry challenges around managing industrial and mobile printers and sensors found throughout common enterprise operations. With remote support features that reduce downtime and operational disruptions, and facilitate the automated gathering of device data, enterprises gain the ability to effectively manage these devices with a centralized, manufacturer-agnostic and integrated solution.

GET YOUR IoT DEVICES DEPLOYED QUICKLY AND SECURELY

SOTI Connect reduces the downtime of business-critical IoT solutions and improves time-to-deployment and security of new IoT devices.

- Harden the security of IoT devices with remote firmware updates to keep them current with product feature enhancements and bug fixes, secure access to corporate resources and configure security settings such as firewalls to prevent external agents from gaining unauthorized access to devices
- Quickly support new IoT devices and improve time-to-market for deploying IoT solutions and make it easy for IT administrators to provision new devices with little effort
- SOTI Connect can monitor the health status of devices and automatically notify IT administrators if there are device issues and often automatically remediate the issue by taking pre-configured actions

SOTI ONE SIMPLIFIES YOUR BUSINESS MOBILITY

The **SOTI ONE Platform** is an integrated suite of solutions designed to reduce the cost, complexity and downtime related to business-critical mobility and IoT. Comprised of six revolutionary products, the SOTI ONE Platform helps businesses remove functional silos, eliminate downtime, build apps faster, manage all mobile and IoT devices in one place and deliver actionable insights. When everything is connected, the SOTI ONE Platform makes mobile and IoT business operations simpler, smarter and more reliable.
